[JOINT RESOLUTION No. 22.—FED. REL.

JOINT RESOLUTION

Be it resolved by the General Assembly of the State of Iowa:

That we regard it as better for the States of the Mississippi Valley that any appropriations made by Congress for the improvement, or construction, of Western waterways should be made for the improvement of the Mississippi, Missouri and other rivers, and that our Senators in Congress be instructed, and our Representatives requested, to favor all appropriations looking to the improvement of said rivers rather than for the construction of any artificial waterways.
